

Technical Information

Description and application

Blue sealant (acetone version) is particularly suitable for exacting and critical sealing applications and recommended for the sealing of head gaskets.

Resistance:

- Mineral oils.
- Most synthetic oils.
- Petrol (and additives).
- Diesel (and additives).
- Lubricants.
- Air.
- Water.
- Antifreeze.

Physical data

Colour	Blue
State	Paste
Specific gravity @ 20°C	1.12
Working temperature range (°C)	-50 to 250
Gap filling (mm)	0.10 – 0.1

Preparation

Ensure all surfaces are free of oil and grease using a suitable solvent such as acetone. Allow cleaning fluid to dry (approximately 10 minutes) before making seal.

Stability and storage

The product when stored in the original container, unopened and at ambient temperatures is three years.
